However, these traits are at the core of Reflect Orbital, an energy startup with a mission so audacious it borders on science fiction: selling sunlight after dark.

Which country controls Western Sahara?

Morocco controls territory to the west of the berm (border wall) while the Sahrawi Republic controls territory to the east (see map on right). Western Sahara was partitioned between Morocco and Mauritania in April 1976, with Morocco acquiring the northern two-thirds of the territory.

Could reflect Orbital replace traditional streetlights with projected sunlight?

Reflect Orbital's satellites could replace traditional streetlights with projected sunlight, Semmelhack told the Review, drastically reducing costs and energy consumption. As for the broader implications of Reflect Orbital's work, Semmelhack sees it as a return to first principles in the energy debate.

Who is reflect Orbital?

Reflect Orbital wants to change that. Semmelhack's journey is just as interesting as the company's mission. An engineer at heart, Semmelhack has been building physical objects since he was a child, from drones in middle school to more complex machines by high school. In 9th grade, he had already started his own drone design business.

1. El Aaiún (Laayoune): Western Sahara's largest city, with a population of roughly 195,000, was founded by the Spanish in 1928 and has been under Moroccan control since 1976. The city is small and easily navigable by foot. It is a great place to spend a day or two before you venture out to explore other desert towns and villages.

Western Sahara's rare visitors - if they're not here to be swept off their feet by the perfect coastal kitesurfing climate, come to be seduced by the emptiness of its desert. But there's an amazing abundance of rare wildlife if you know where to look, plus the hospitality of the remaining nomadic Sahrawi people who live here, too.
