

Is Morocco dependent on Western Sahara for its energy supply?

But these developments have made Morocco partly dependent on Western Sahara for its energy supply. Morocco already gets 18% of its installed wind capacity and 15% of its solar from the occupied territory, and by 2030 that could increase to almost half of its wind and up to a third of its solar.

Does German government support Siemens Energy in occupied Western Sahara?

The German government has clarified that its financial support for Siemens Energy will include a provision excluding the firm's projects in "Moroccan-occupied Western Sahara". French H2F Energy announces its partnership in gigantic green hydrogen production project in occupied Western Sahara.

Will EU-Morocco agreements be applied to occupied Western Sahara?

On 23 and 24 October, the EU Court of Justice will hear the parties to the cases on applying EU-Morocco agreements to occupied Western Sahara. New report: Morocco uses green energy to embellish its occupation.

Why did Morocco invade Western Sahara?

According to Morocco, Western Sahara formed part of the Moroccan sultanate before Spanish colonisation in the 1880s. However, that year the International Court of Justice disagreed, and urged a self-determination referendum on independence for the indigenous Saharawis. Nevertheless, Morocco invaded and used napalm against fleeing Saharawi refugees.

Western Sahara is very sunny and surprisingly windy - a natural renewable energy powerhouse. Morocco has exploited these resources by building three large wind farms (five more are planned)...
