

What can be placed in a 35cm locker

What size locker do I Need?

About the size of two pick-up loads, a 5-by-8 or 5-by 10' locker is the perfect option for students who are looking to share a storage space. They're also great for condo, apartment and small business owners who need to off-load furniture and other seasonal items. Use these units for things such as: Books and record storage (both vinyl and paper!)

How deep should a locker be?

Locker depths usually range from 12 inches to 24 inches deep. The more depth you've got, the more room there is to stash loads of items from floor to ceiling! So go as deep as you can fit for maximum interior space. Now let's chat about how to configure your locker layout. The most popular options are single-tier or double-tier lockers.

What are the different types of lockers?

Whether you are looking for lockers for your workplace, gym, hospital, or school, you need to consider the design, functionality, and durability of your options. In this comprehensive guide, we will introduce you to the different types of modern lockers, such as melamine lockers, laminate lockers, wood lockers, and more.

Which locker material should I Choose?

Luckily, Hollman is simplifying the process by breaking down our locker material selections. Laminate is a popular material choice that is affordable, durable, and comes in a wide variety of color selections. Both TFL and HPL laminate are fused together with heat and pressure to create a durable surface.

How big should a office locker be?

For offices, a common locker size is 12 inches wide x 18-24 inches deep x 78 inches high. The deeper depth lets grownups store bigger items like purses, lunch bags, gym clothes, and spare shoes. Also, make sure to include a top shelf in office lockers for hats, helmets, and other misc items.

Should you use smaller lockers?

Using smaller lockers can allow you to maximize the number of lockers; however, it'll reduce total locker space. While size and dimensions are huge factors when deciding on your lockers, you also need to figure out the material that you're going to use.
