How do you get wind burst in Minecraft?

Minecraft Wiki is a FANDOM Games Community. Wind Burst is an enchantment for the mace that launches the user into the air seven blocks per level after performing a smash attack. It can only be obtained from ominous vaults found in trial chambers.

Where can I find wind burst?

Wind Burst is an enchantment for the mace that launches the user into the air seven blocks per level after performing a smash attack. It can only be obtained from ominous vaults found in trial chambers. Community content is available under CC BY-NC-SA unless otherwise noted. What is Fandom? Take your favorite fandoms with you and never miss a beat.

Does wind burst activate a smash attack?

Attacks on the ground do not activate Wind Burst, as the activation requires a smash attack. Due to the slow attack speed of the mace in Java Edition, it is impossible to chain smash attacks together with Wind Burst while still doing fully charged attacks.

How much knockback does wind burst add?

Wind Burst adds approximately 8 blocks of upward knockback for the first level, 16 blocks for the second level, and 24 blocks for the third level. The table below details the explosion knockback multiplier and blocks launched per level. Further Wind Burst levels use the formula  $1.15 + 0.35 \times \text{level}$  to calculate the knockback multiplier.

How do you get wind burst enchantment?

It is the only mace-exclusive enchantment that cannot be obtained through an enchanting table. Wind Burst can only be obtained from ominous vaults in trial chambers in the form of enchanted books at level I. It is a rare enchantment, having a 5.5% chance of being ejected from an ominous vault.

Does wind burst work without a data pack?

Wind Burst is now available without using the "Update 1.21" experimental data pack. Items other than the mace that are given Wind Burst using commands now only activate Wind Burst upon falling at least 1.5 blocks, rather than activating Wind Burst from the ground. Wind Burst now negates fall damage like wind charges do, per a bug fix.
