

# Wind power generation stock issue price

Are wind stocks a good investment?

Wind stocks benefit from many of the advantages wind energy has over other types of energy sources. Wind energy is a rapidly growing area of the alternative energy industry, and accounted for more than 10% of U.S. energy production in 2022.

How many wind energy stocks does ETF hold?

As of mid-2024, it held more than 55 wind energy stocks. Of note, its top 10 holdings included Vestas Wind Systems, Siemens Energy, and NextEra Energy. The ETF has a heavy concentration of foreign-listed wind energy stocks; Denmark-listed wind stocks made up the largest country share of its portfolio, at almost 17%.

Is Northland Power a good wind energy stock?

Northland Power also trades over-the-counter (OTC) in the U.S. under the ticker NPIFF. These are the top wind energy stocks as ranked by a growth model that scores companies based on a 50/50 weighting of their most recent quarterly YOY percentage revenue growth and their most recent quarterly YOY earnings-per-share (EPS) growth.

Is wind energy a good investment?

Although wind energy is growing in importance, few companies focus solely on manufacturing wind turbines and components or producing wind energy. Only a couple trade on major U.S. stock exchanges. That leaves investors with few domestic pure-play wind energy investment opportunities.

Is GE a wind stock?

While those revenue numbers are larger than the entire operations of a few stocks on this list and the stock is incredibly liquid and widely held, the reality is that wind is not a significant driver of GE's success as a corporate entity. In other words, while stocks like GE may be more prominent or easy to trade, they are not truly "wind stocks."

Are wind energy ETFs diversified?

The underlying index is designed to provide exposure to companies that are positioned to benefit from further advances in the field of wind energy technology. The fund is non-diversified. Trailing returns as of 10/22/2024. Category is Miscellaneous Sector. After a Tough 2023, Can Wind Energy ETFs Rebound in 2024?
