

# Wind power generation stocks

Are wind stocks a good investment?

Wind stocks benefit from many of the advantages wind energy has over other types of energy sources. Wind energy is a rapidly growing area of the alternative energy industry, and accounted for more than 10% of U.S. energy production in 2022.

What are the top wind energy stocks in 2023?

Wind energy produced 10% of U.S. power in 2023. Top wind energy stocks include NextEra, GE Vernova, and Vestas. ETFs like First Trust Global Wind Energy provide diversified exposure to the wind energy sector. Key findings are powered by ChatGPT and based solely off the content from this article. Findings are reviewed by our editorial team.

Is Northland Power a good wind energy stock?

Northland Power also trades over-the-counter (OTC) in the U.S. under the ticker NPIFF. These are the top wind energy stocks as ranked by a growth model that scores companies based on a 50/50 weighting of their most recent quarterly YOY percentage revenue growth and their most recent quarterly YOY earnings-per-share (EPS) growth.

How many wind energy stocks does ETF hold?

As of mid-2024, it held more than 55 wind energy stocks. Of note, its top 10 holdings included Vestas Wind Systems, Siemens Energy, and NextEra Energy. The ETF has a heavy concentration of foreign-listed wind energy stocks; Denmark-listed wind stocks made up the largest country share of its portfolio, at almost 17%.

Is wind energy a good investment?

Although wind energy is growing in importance, few companies focus solely on manufacturing wind turbines and components or producing wind energy. Only a couple trade on major U.S. stock exchanges. That leaves investors with few domestic pure-play wind energy investment opportunities.

What makes a 'wind stock'?

As with many alternative energy investments, there's no bright lines to what makes a "wind stock" as opposed to a company that does other things and merely dabbles in this area. Consider General Electric (GE), which is undoubtedly a big player in the wind sector, as its onshore wind segment generates billions each year.

This includes onshore and offshore wind, hydro power, electricity transmission and distribution grids, and efficient gas-fired generation. A renewable energy company of significant size, SSE ...

Wind energy plays a big role as the U.S. moves away from fossil fuels. One of the reasons now may be a good time to invest in the domestic offshore wind industry is that the federal government...
