

Is solar energy a viable source of energy in Yemen?

Within a few years, solar energy in Yemen has increased its capacity by 50 times and has recently become the primary source of electricity for most Yemenis. Furthermore, the paper discusses the difficulties and challenges that face the implementation of renewable energy investment projects.

What is the energy mix in Yemen?

However, Yemen's current energy mix is dominated by fossil fuels (about 99.91%), with renewable energy accounting for only about 0.009%. The national renewable energy and energy efficiency strategy, on the other hand, sets goals, including a 15% increase in renewable energy contribution to the power sector by 2025 (Fig. 11).

Can solar power be used in the telecommunication sector in Yemen?

Alkholidi FHA (2013) Utilization of solar power energy in the telecommunication sector in Yemen. J Sci Technol n.d. 4 pp 4-11 Alkholidi AG (2013) Renewable energy solution for electrical power sector in Yemen.

How is Yemen dealing with energy problems?

Yemen is dealing with the dilemma of energy networks that are unstable and indefensible. Due to the fighting, certain energy systems have been completely damaged, while others have been partially devastated, resulting in a drop in generation capacity and even fuel delivery challenges from power generation plants.

What is the main energy source in Yemen?

According to the International Energy Agency, in 2000, oil made up 98.4% of the total primary energy supply in Yemen with the remainder comprising biofuels and waste (International Energy Agency). Natural gas and coal were introduced into the energy mix around 2008, and wind and solar energies were added around 2015.

What is the solar energy revolution in Yemen?

In addition, this paper sheds light on the solar energy revolution that has arisen since the war started due to the complete outage of the national electricity. Within a few years, solar energy in Yemen has increased its capacity by 50 times and has recently become the primary source of electricity for most Yemenis.
