

# Yes solar panels The Gambia

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

How many PV systems will be installed in Gambia?

Gambia's Sustainable Energy Services Company is launching a tender to install 1,100 PV systems, ranging from 2 kW to 240 kW in size, on 1,000 schools and 99 health facilities.

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment

How much solar power does Gambia have in 2022?

According to the International Renewable Energy Agency (IRENA), Gambia only had 2 MW of installed PV capacity at the end of 2022. Gambian utility Nawec recently started building a 23 MW solar project in Jambur, in Gambia's West Coast Region.

What is the energy system in Gambia?

The Gambian electricity network mainly consists of minigrids that the government hopes to improve by transforming into hybrid minigrids, integrated with renewable energy generation capacity. With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013.

How does a large scale solar PV project benefit the Gambia?

The project contributes to gainful employment creation in The Gambia with 1,250 direct jobs created from the construction phase to operation and maintenance. To ensure sustainability, a three-year operations and maintenance contract (O&M) has been signed as large scale solar PV is entirely new to the sector.

Ideally tilt fixed solar panels 13° South in Banjul, Gambia. To maximize your solar PV system's energy output in Banjul, Gambia (Lat/Long 13.4493, -16.5799) throughout the year, you should tilt your panels at an angle of 13° South for fixed panel installations.

The Inauguration Ceremony, which was presided over by His Excellency Adama Barrow, the President of the Republic of The Gambia, celebrated the completion of a 23 MWp Photovoltaic Solar plant in Jambur, ...

Reply from Yes Solar Solutions: Nat - it is so important to our team to make sure that our customers feel comfortable and confident with the right solar options for their specific needs. To do that, it requires listening
