

While Younicos-Aggreko has already been offering plug and play battery storage on short term rentals, integrating energy storage with Aggreko's "existing hybrid solar-diesel offering doesn't ...

Discover Aggreko rental battery & energy storage systems & solutions, including plug & play battery systems, suitable for both commercial & industrial use. Delivering the ultimate performance efficiency by enabling you to store and ...

Younicos Inc. has entered into an agreement with leading solar power supplier OCI Solar Power to provide a turnkey battery storage system at one of OCI Solar Power's projects in Texas. ...

Younicos Inc. has entered into an agreement with leading solar power supplier OCI Solar Power to provide a turnkey battery storage system at one of OCI Solar Power's projects in Texas. The system will be the first integrated grid-scale solar-plus-storage project to be deployed in the ERCOT market. o The system is expected come online [...]

"As a pioneer of smart energy solutions based on battery storage, Younicos is at the forefront of this trend. Together we are a powerful combination; our scale, fleet and global ...

Battery storage specialist Younicos has been selected by Centrica to design the 49MW battery storage project that was last week awarded a 15-year Capacity Market contract. The battery, to be built on the site of a former coal-fired power station in Roosecote, Cumbria, is to be owned and operated by Centrica, but the energy giant has selected ...

The Schwerin-WEMAG Younicos - Battery Energy Storage System 2 is a 10,000kW energy storage project located in Schwerin, Mecklenburg-Vorpommern, Germany. The electro-chemical battery energy storage project uses lithium-ion as its storage technology. The project was announced in 2016 and was commissioned in 2017.

WEMAG aims to complete the building in March next year and commission the second power plant block in June 2017. Credit: Younicos. Berlin-based energy storage software firm Younicos and German utility WEMAG have started work on expanding the storage capacity of a battery park in Schwerin, Germany, from 5MW to 10MW power output and 5MWh to ...

Aggreko and Younicos" chief executives waxed optimistic regarding the all-cash, GBP40 million acquisition and merger despite expectations Younicos will continue to lose money over the near term. ... "As a ...

Berlin- and Austin-based Younicos provides the necessary software for plant control and is supporting

WEMAG with technical expertise during the implementation phase. Younicos will also integrate additional power electronics into the system. The Schwerin battery park, commissioned in 2014, was the first commercial battery storage resource in ...

Duke Energy is using Younicos controls technology to manage operations for a 36 megawatt Battery Energy Storage System (BESS) at the site of Duke Energy's 153 MW Notrees wind ...

In 2013/14 Younicos built Schwerin 1, a 5 MW/5 MWh battery power plant. Located in the Schwerin district of Lankow, the battery park is housed in a hall the size of a school gym. Inside, 1,600 battery "trays" contain 25,600 lithium-manganese-oxide cells that can store and release energy within milliseconds.
