

Can battery storage be used with solar photovoltaics in Zambia?

The Zambian regulation foresees customs duty and VAT exemptions for most equipment used in renewable energy or battery storage projects. Detailed information is provided in In this section, we discuss the opportunity of battery storage in combination with solar photovoltaics from a financial point of view.

Why is Zambia preparing for a future powered by renewables?

To address this, Zambia will need to invest in energy storage solutions, such as batteries, to ensure a consistent and reliable supply of power. Despite these challenges, Zambia is actively taking steps to pave the way for a future powered by renewables.

Is Zambia a good place for solar power?

Beyond the limitations of its current energy landscape lies a wealth of opportunity. Zambia is blessed with an abundance of natural resources that can be harnessed to create a more sustainable and secure energy future. Sunshine bathes the land for an average of 2,000 to 3,000 hours annually, presenting a perfect scenario for solar power generation.

How can Zambia improve energy security?

Enhanced Energy Security: By diversifying its energy mix and reducing dependence on a single source like hydropower, Zambia can mitigate the risks associated with climate variability. Droughts and fluctuating water levels will have a less significant impact on overall electricity generation.

How much does storage cost in Zambia?

Zambia, between USD 500/kWh and USD 1,000/kWh. With 3,650 kWh stored during the lifetime of the system, we can compute a cost of storage of USD 0.14/kWh and USD 0.27/kWh.

How can Zambia illuminate a brighter future?

By harnessing its abundant renewable resources, overcoming investment and technical hurdles, and fostering a supportive policy environment, Zambia can illuminate a brighter future. A future powered by clean energy, ensuring energy security for all its citizens, and contributing to a more sustainable world.

Hynfra's subsidiary, Hynfra Energy Storage, is a developer of energy storage systems on an industrial scale. In December, the company together with its partners Heyka Capital Markets and developer PKE Pomorze won a 17 year contract with its 7.5 MW storage facility at the auction of Polish power grid operator Polskie Sieci Elektroenergetyczne.
