

Zimbabwe eclectic energy d400

Why should you choose eclectic Energy Ltd for your D400?

A combination of the advanced air blade and alternator design delivers unparalleled efficiency in low wind speeds together with the ability to produce sustained high outputs in high winds. Eclectic Energy Ltd's attention to design and quality should ensure your D400 gives years of trouble-free service.

What is a D400 wind generator?

The D400 is a dedicated wind generator, designed for a variety of marine, rooftop or terrestrial applications. It is exceptionally quiet and vibration-free in operation and is also the most efficient and powerful wind generator available at its rotor size.

Is the D400 a good wind turbine?

The D400 is one of the most efficient, powerful and well-engineered turbines currently available. Please read the entire manual thoroughly prior to installation to ensure your personal safety and the optimum performance of the equipment. The noise and vibration usually associated with small wind turbines has been designed out of the D400.

Why does the D400 turn off the wind?

o Erratic yaw action; the D400 turns off the wind and is unstable - the D400 is normally very stable in yaw. If the turbine appears to 'hunt around' its axis, this could be due to turbulence in the airflow.

How much wind load can a D400 turbine handle?

The wind loading on the D400's rotor disc can exceed 50 kg, so any tower structure should be designed to allow for a safe working lateral load of 70 kg at the hub height of the turbine. o Spin the blades by hand - they should rotate smoothly and freely with no hard spots.

Does eclectic Energy Ltd offer trouble-free service?

Eclectic Energy Ltd's attention to design and quality should ensure your D400 gives years of trouble-free service. Please feel free to contact us if you require additional advice or guidance.

variant. The D400 is available in white or in black. o Inexpensive to purchase and virtually silent in operation, once installed the D400 is no more conspicuous than a satellite dish.
